

Besides National Broadcasting Program, K-LOVE is the only OTHER station I listen to. With all the trash showing on TV and idiotic songs on most radio stations, it is refreshing to listen to K-Love. This station does not "push" religion down down your throat. K-Love is encouraging, up-lifting and informs us on events, concerning the Christian faith, some we normally would not find out about. This has proven true in alot of instances. The station is definitely in the Public Interest, by providing wholesome, family friendly programming. I add my comments to others you have probably recieved. DO NOT GIVE PRIORITY TO LPFM over FM translator services. We need our signal!!
